Nuova tendenza o soltanto riscoperta?

Il Finger Food esprime un innovativo concetto creativo o l'equivalente di ciò che erano gli stuzzichini di un tempo? In tavola l'importante è godere dei piaceri che il palato può offrire... e se anche l'occhio vuole la sua parte, la linea Les Chics di Gold Plast offre le soluzioni più accattivanti per rendere completo il piacere dell'aperitivo o dei piccoli buffet dolci e salati.

Design, qualità e fantasia...

Is it a new trend or just a rediscovery?

Does Finger Food express an innovative and creative concept, or rather the equivalent of what appetizers once were? Whilst having a meal, the important thing is to enjoy the pleasures of the palate... and if your eyes also want their share of things, the Les Chics line by Gold Plast provides extremely charming solutions that add the perfect finishing touch to aperitifs or small sweet and savoury buffets.
